Giles Miller Studio believes in enriching the way we experience our surroundings.

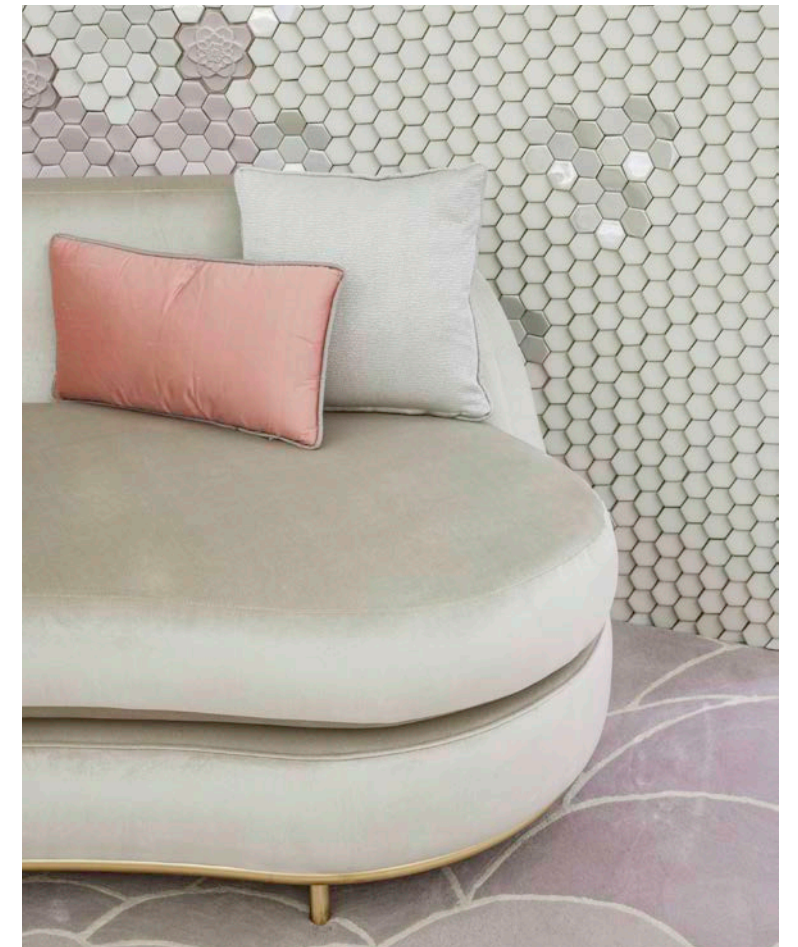

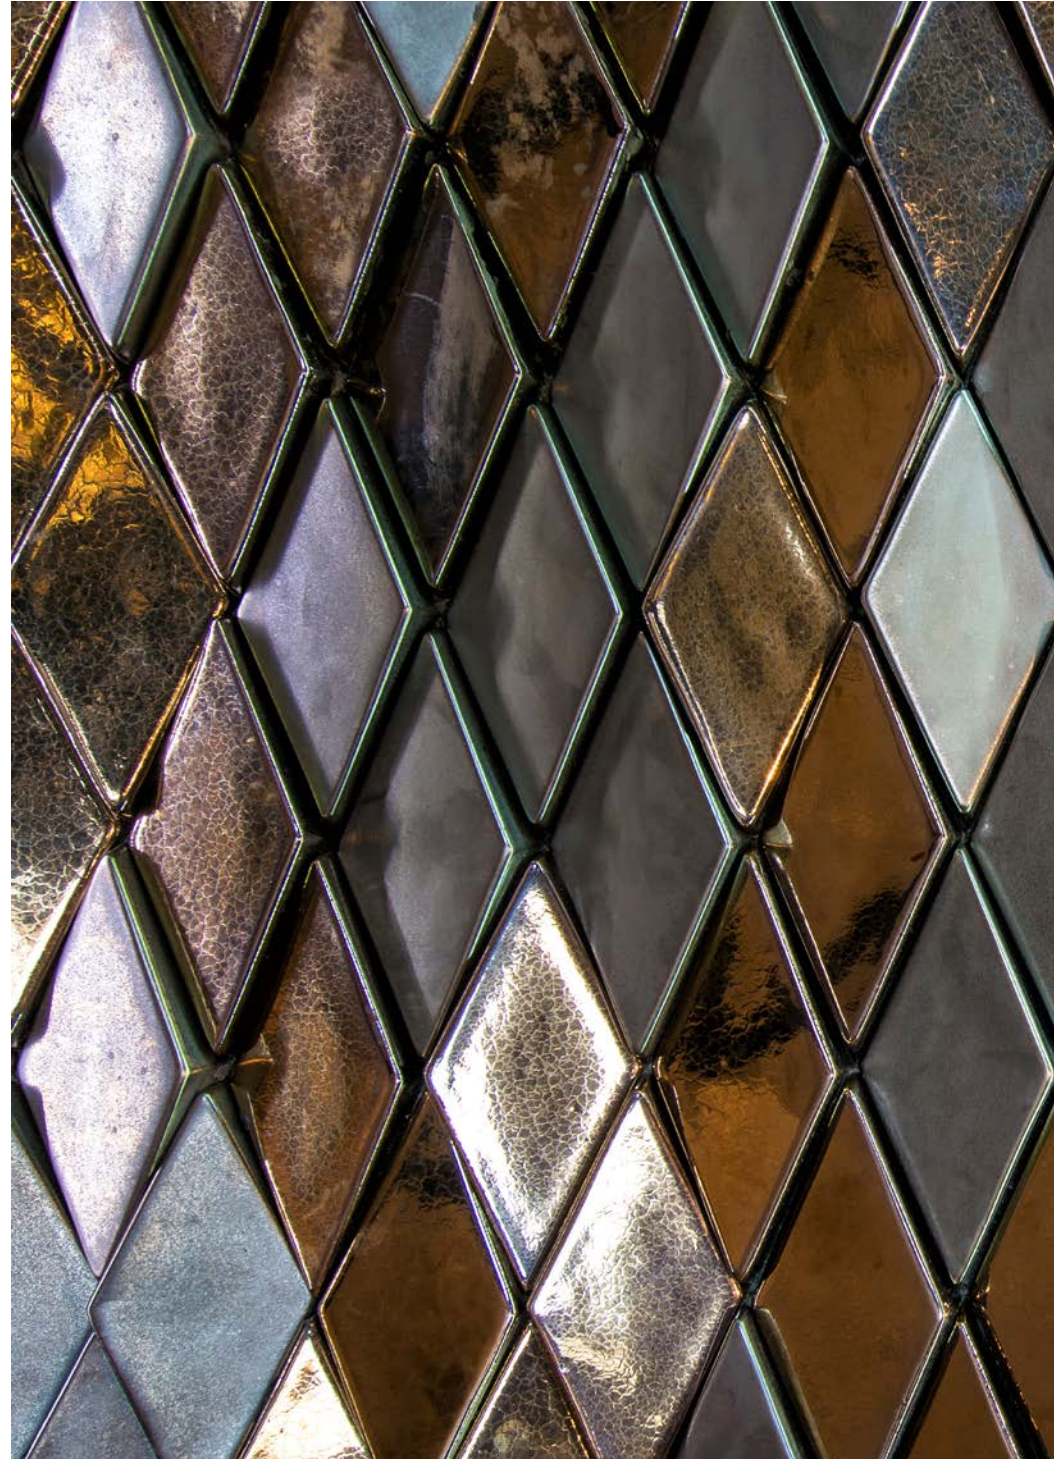

The studio creates innovative surfaces, sculpture and architecture.

In each discipline, the studio brings new meaning to spaces by celebrating the relationship between materials and light.

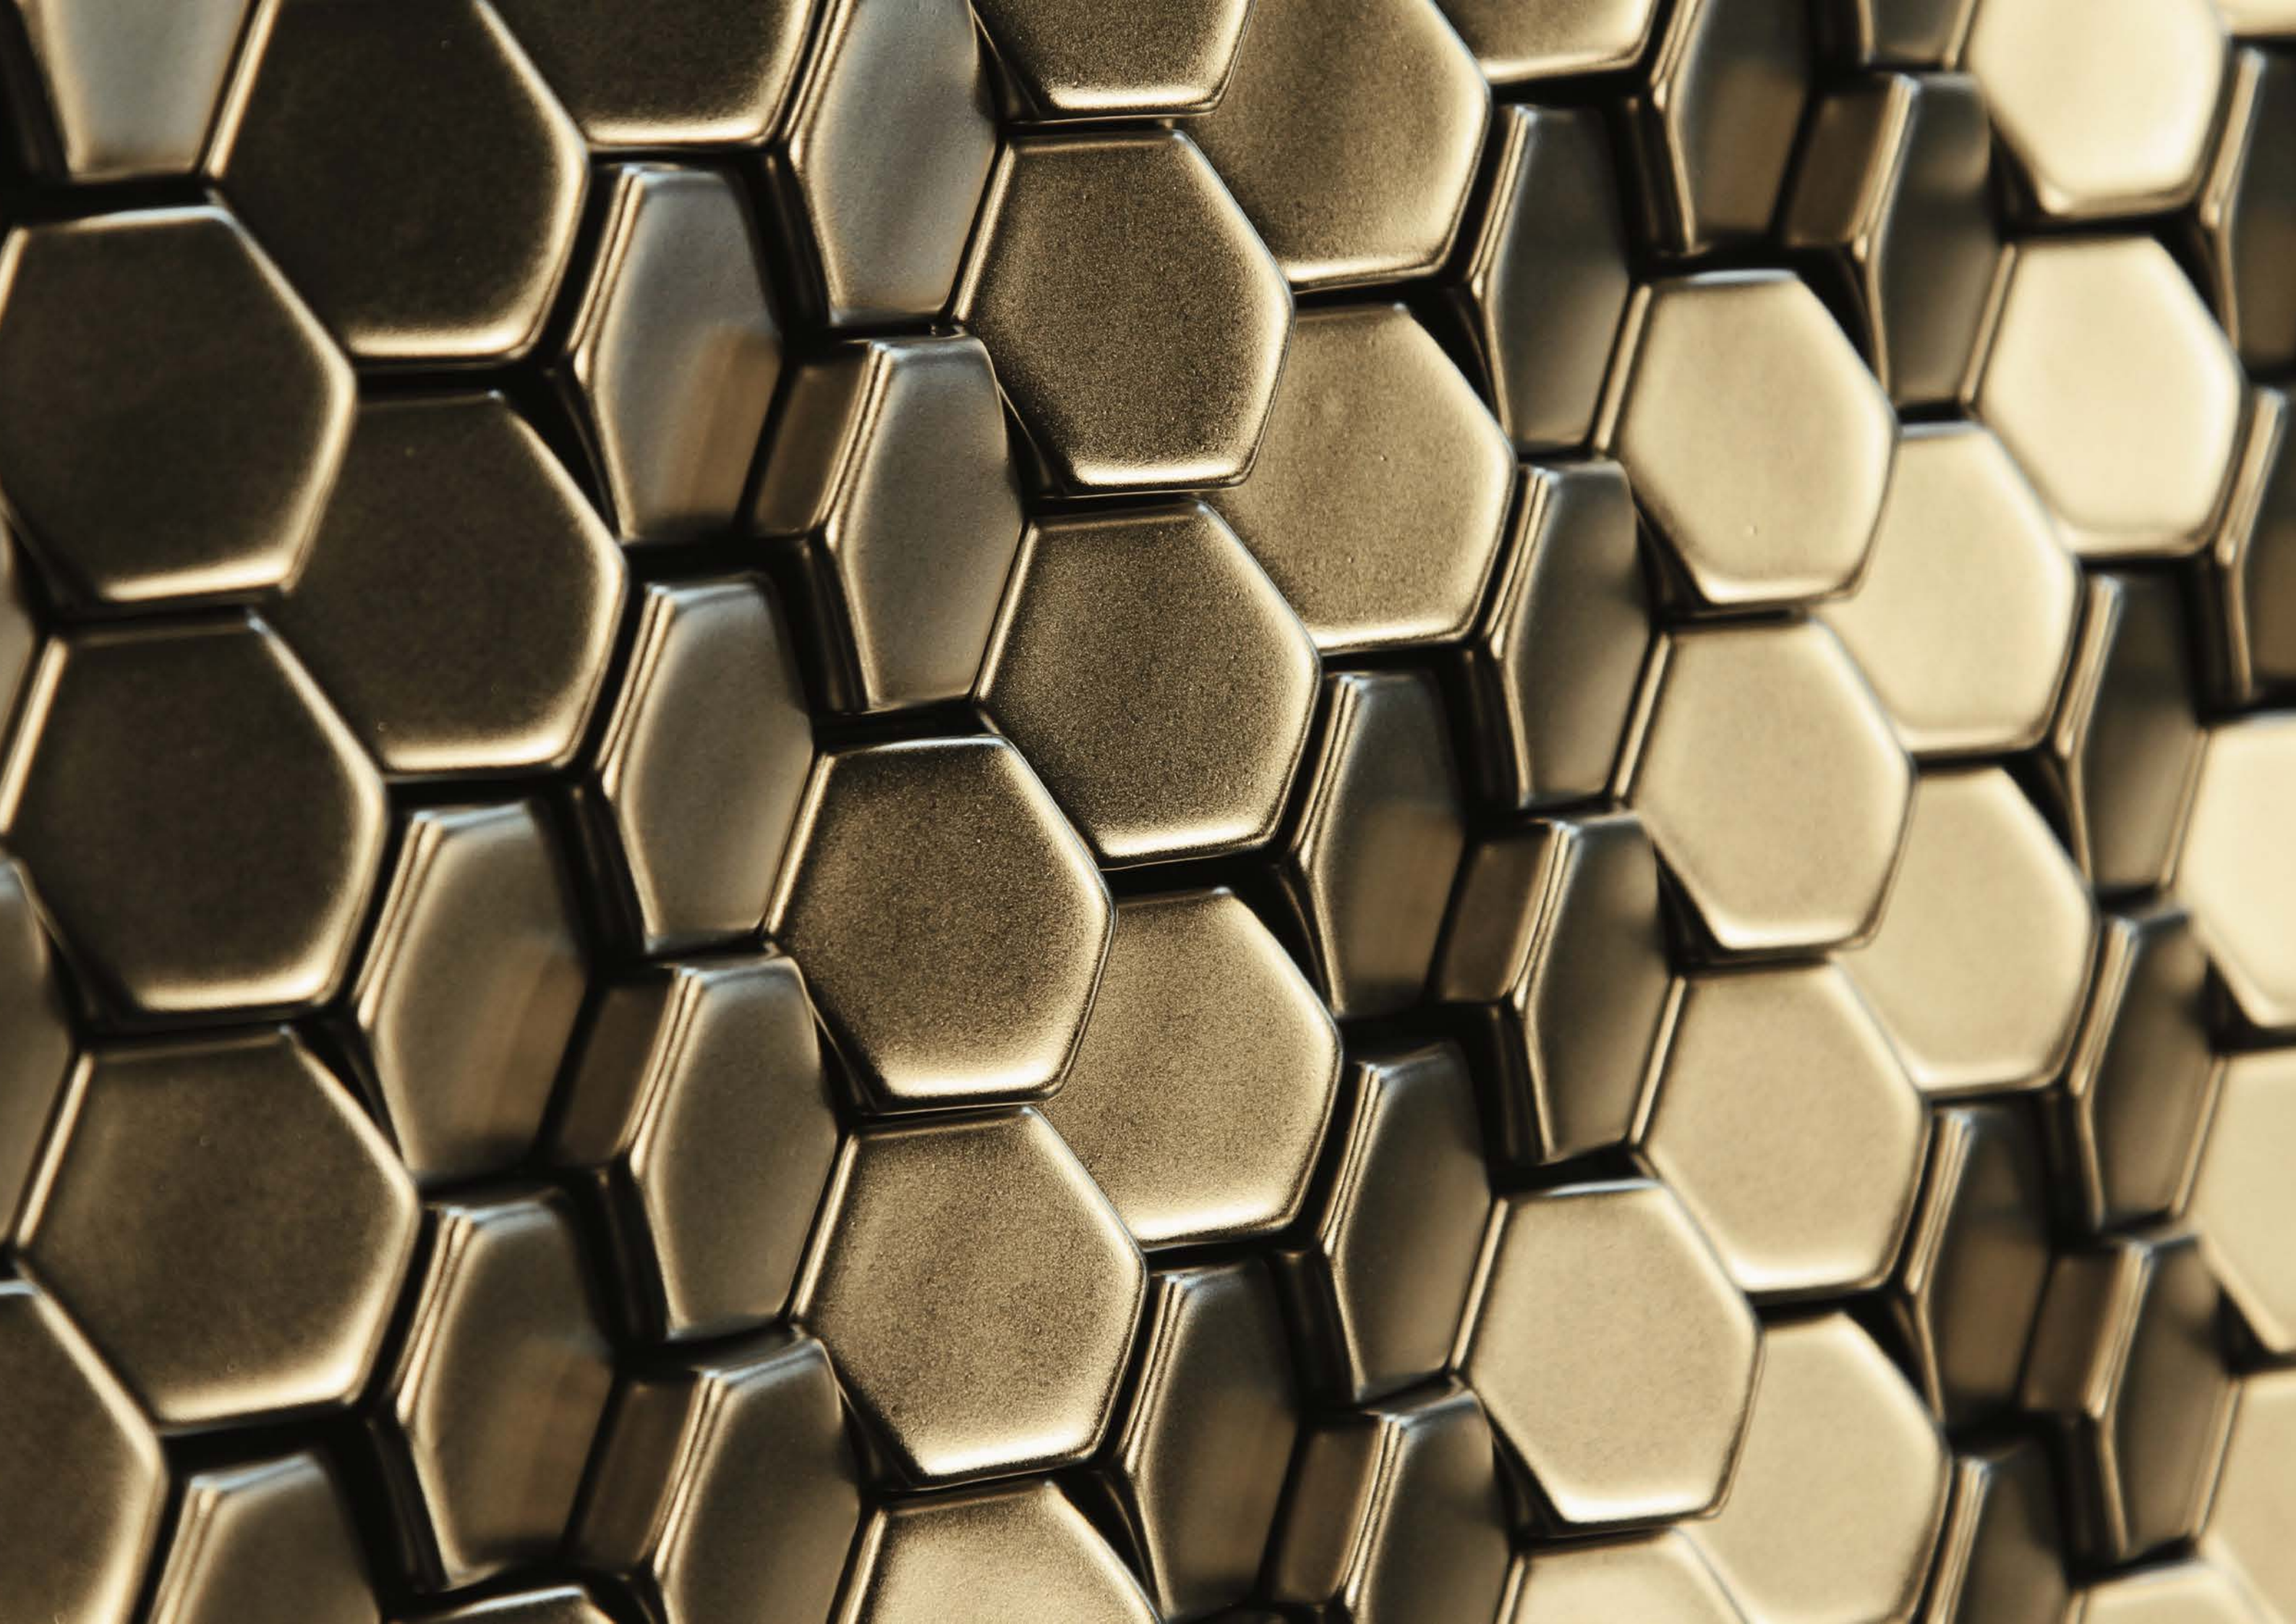

## Giles Miller Studio in the UAE

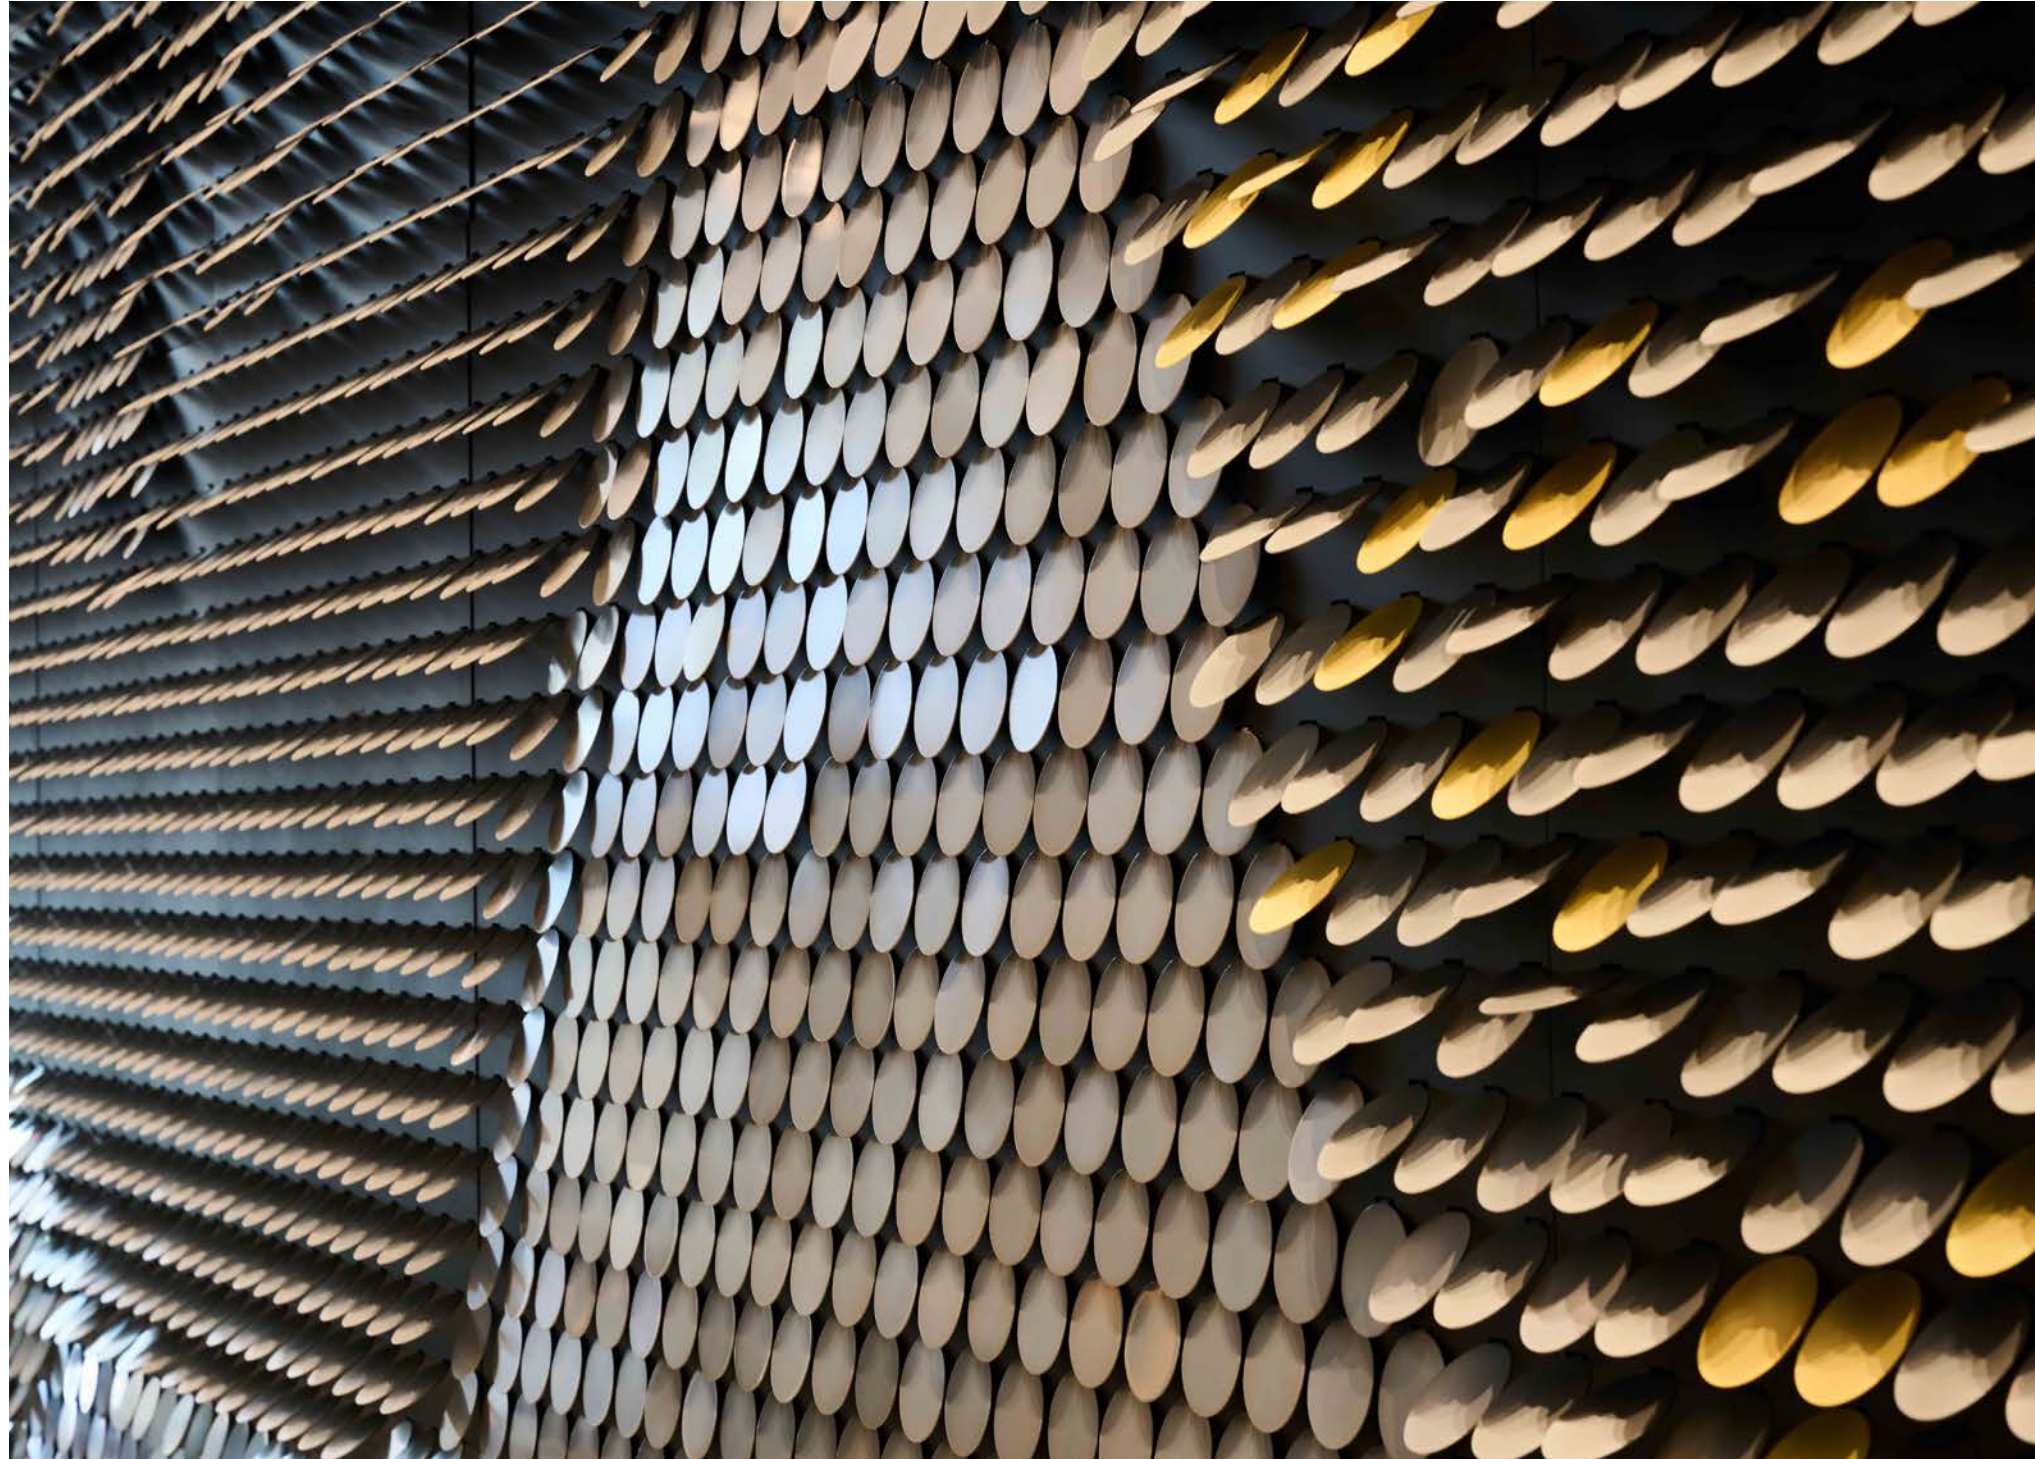

Giles Miller studio has a long history with working on creative projects in the UAE. We have found the clients and projects we have worked with in the region to consistently demonstrate the highest degree of creative aspiration, and the studio has completed some of its boldest and most successful artworks here. We have worked on projects across retail, hospitality and the private sector in multiple locations over the UAE.

## Sheikh Zayed – A Portrait

*Dubai, United Arab Emirates*

This unique portrait of the late Sheikh Zayed bin Sultan Al Nahyan is the centrepiece for DoubleTree by Hilton Dubai M Square Hotel & Residences

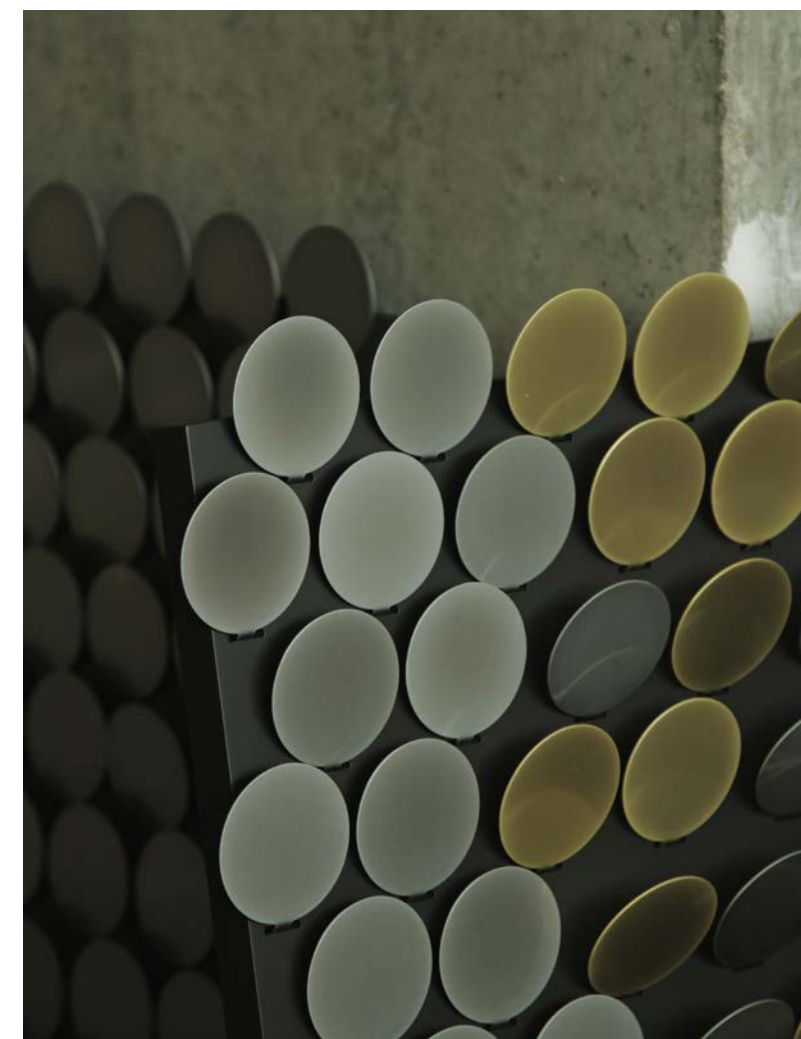

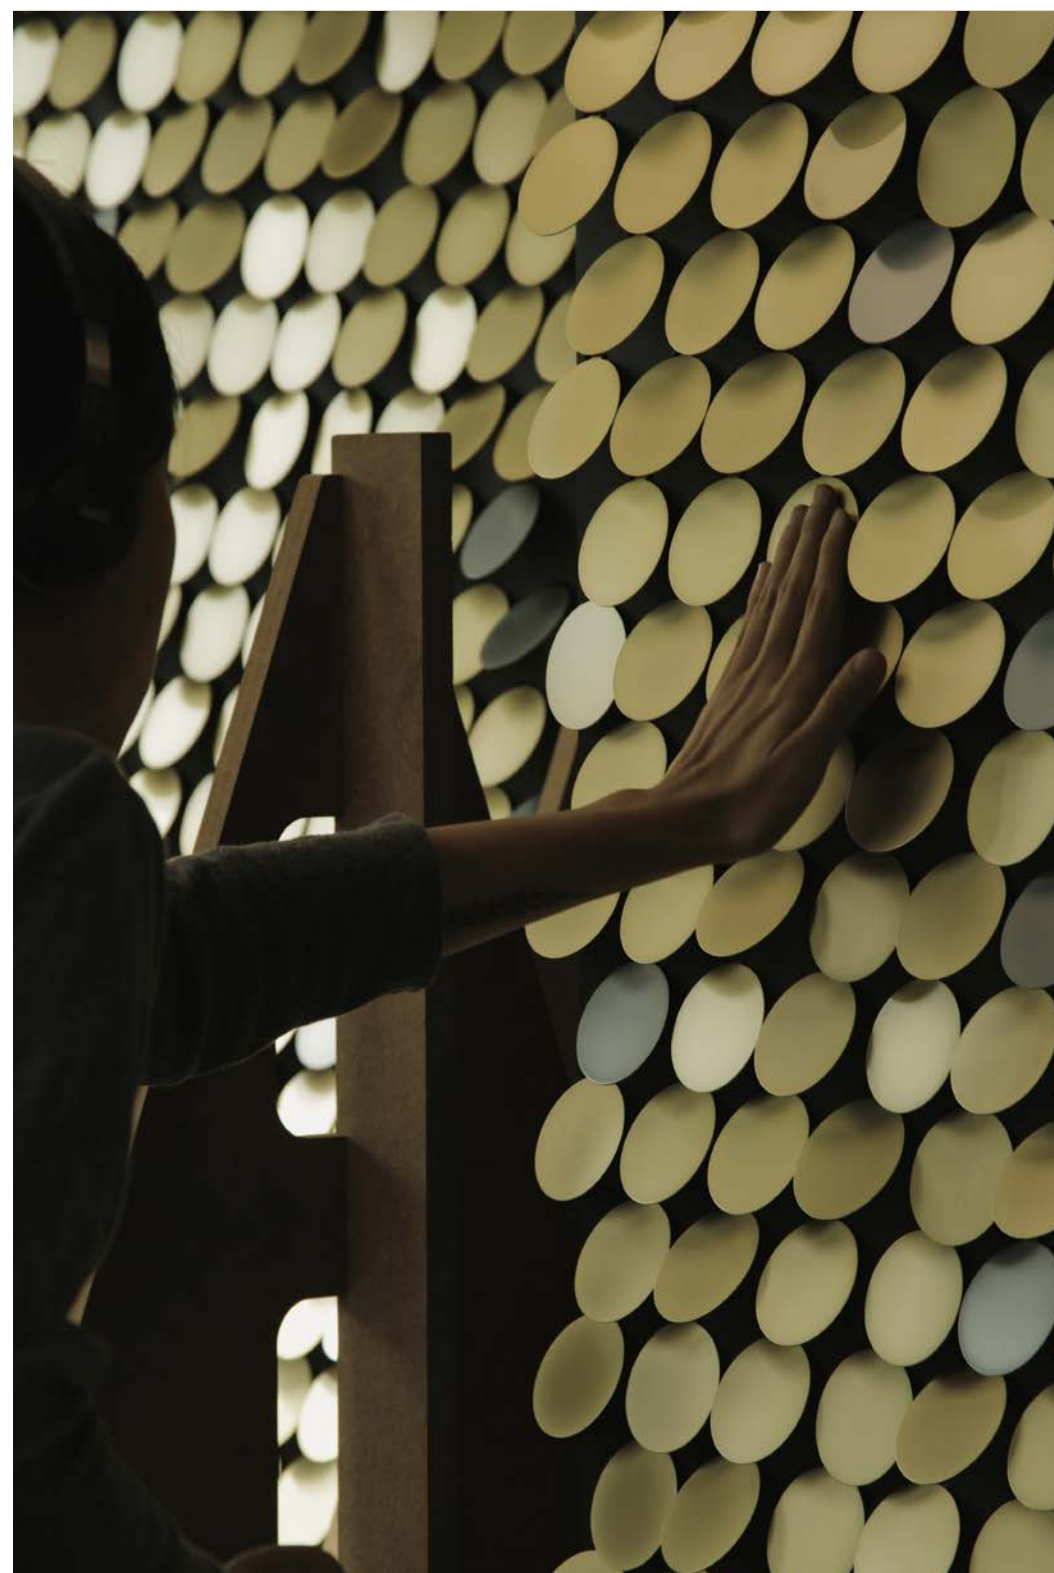

The intriguing and imposing work of art is over 15m long and is made up of over 29,000 reflective discs, composed in the surface of the artwork at varying angles to reflect light back to the viewer.

The mural features a gradient of reflective tone as a backdrop to Sheikh Zayed, and it is a feat of the artistic technique developed by the studio that only two different finishes of plated metal were used to create an image that appears to be highly varied and expressive in tonal depiction.

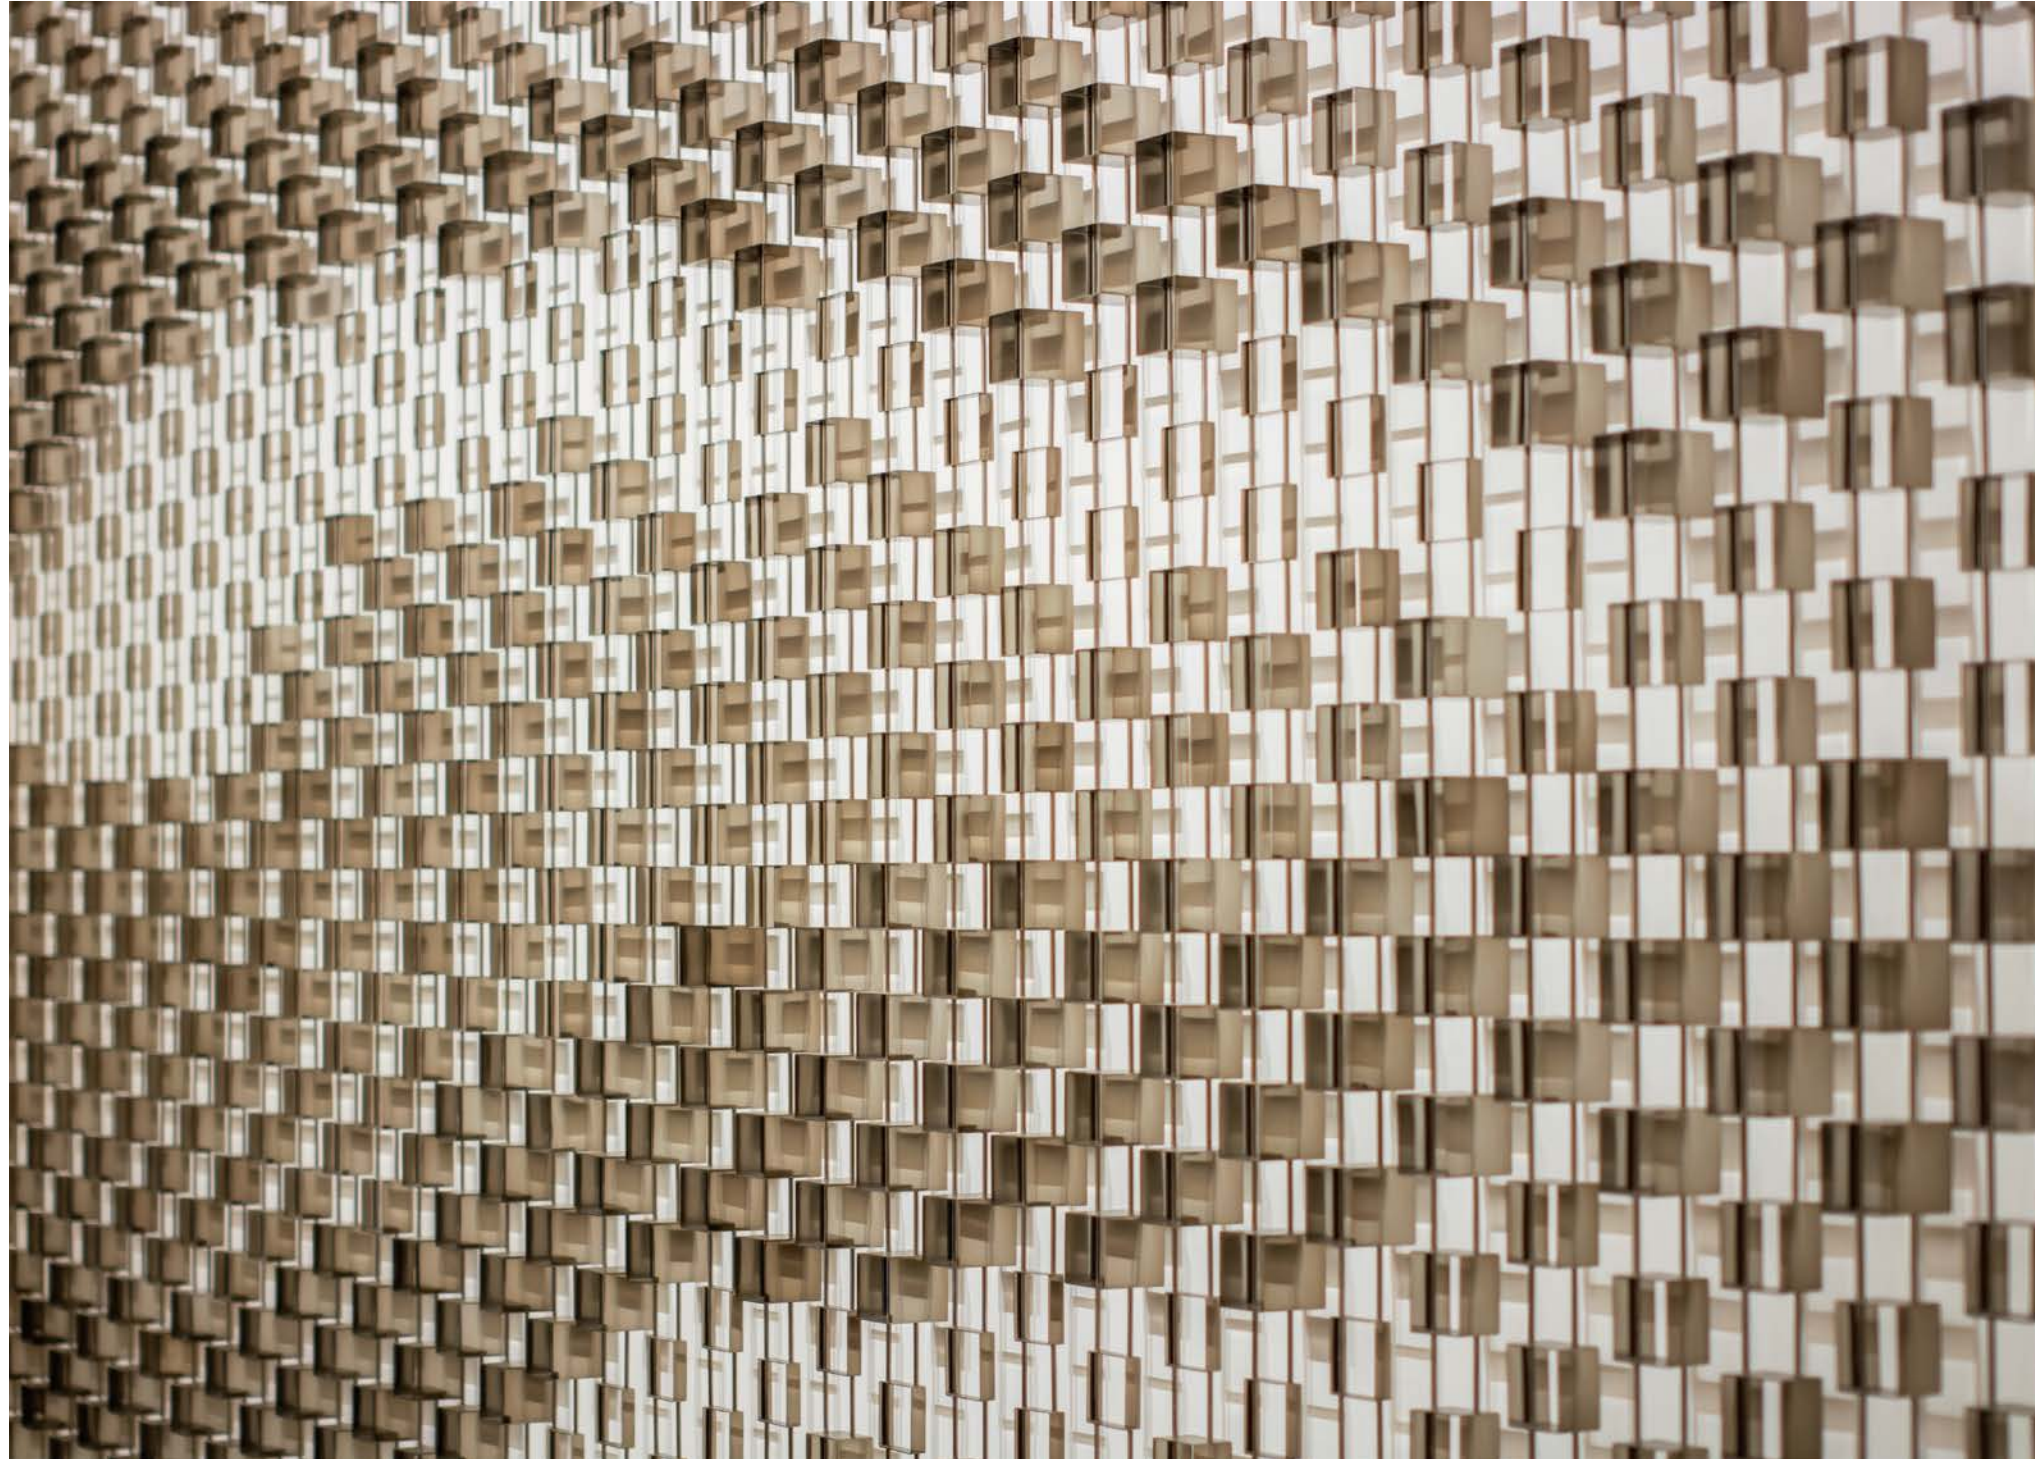

## Drift

*Kempinski Hotel, Dubai*

*Drift* is a 9m high sculptural installation consisting of thousands of bronze-finish boxes suspended in the atrium of the world famous Kempinski Hotel in Dubai.

Both snow drifts and sand dunes are created when the wind leaves natural contouring patterns in the texture of the earth. In homage to the artistic hand of nature, 'Drift' explores the use of other elements in creating beautiful visual effect by way of texture, light and shadow.

Thousands of bronze boxes of varying depths are suspended from the ceiling in a programmed composition which uses the depth of the boxes and the consequential light and shadow surrounding each one to vary in tone and generate the pattern within this intriguing 3-dimensional mural.

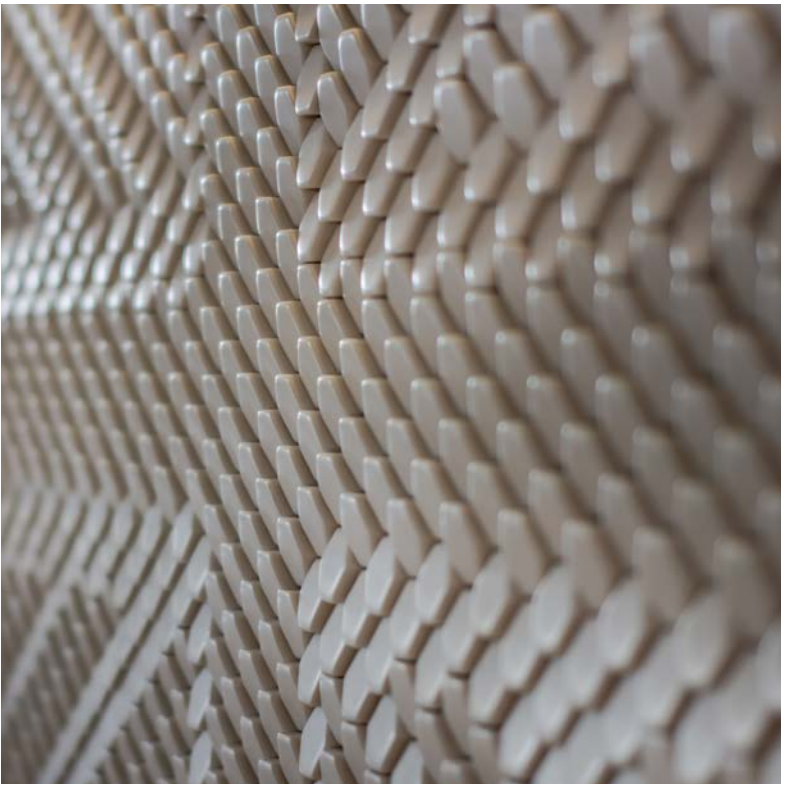

## Geales Restaurant

*Le Royal Meridien, UAE*

Bringing a little of the UK to the UAE, the studio created a series of subtle Union Jack flags for the bar-front at the Geales Restaurant, Le Royal Meridien Hotel, Dubai. The space was designed by LWDesign Group, Dubai.

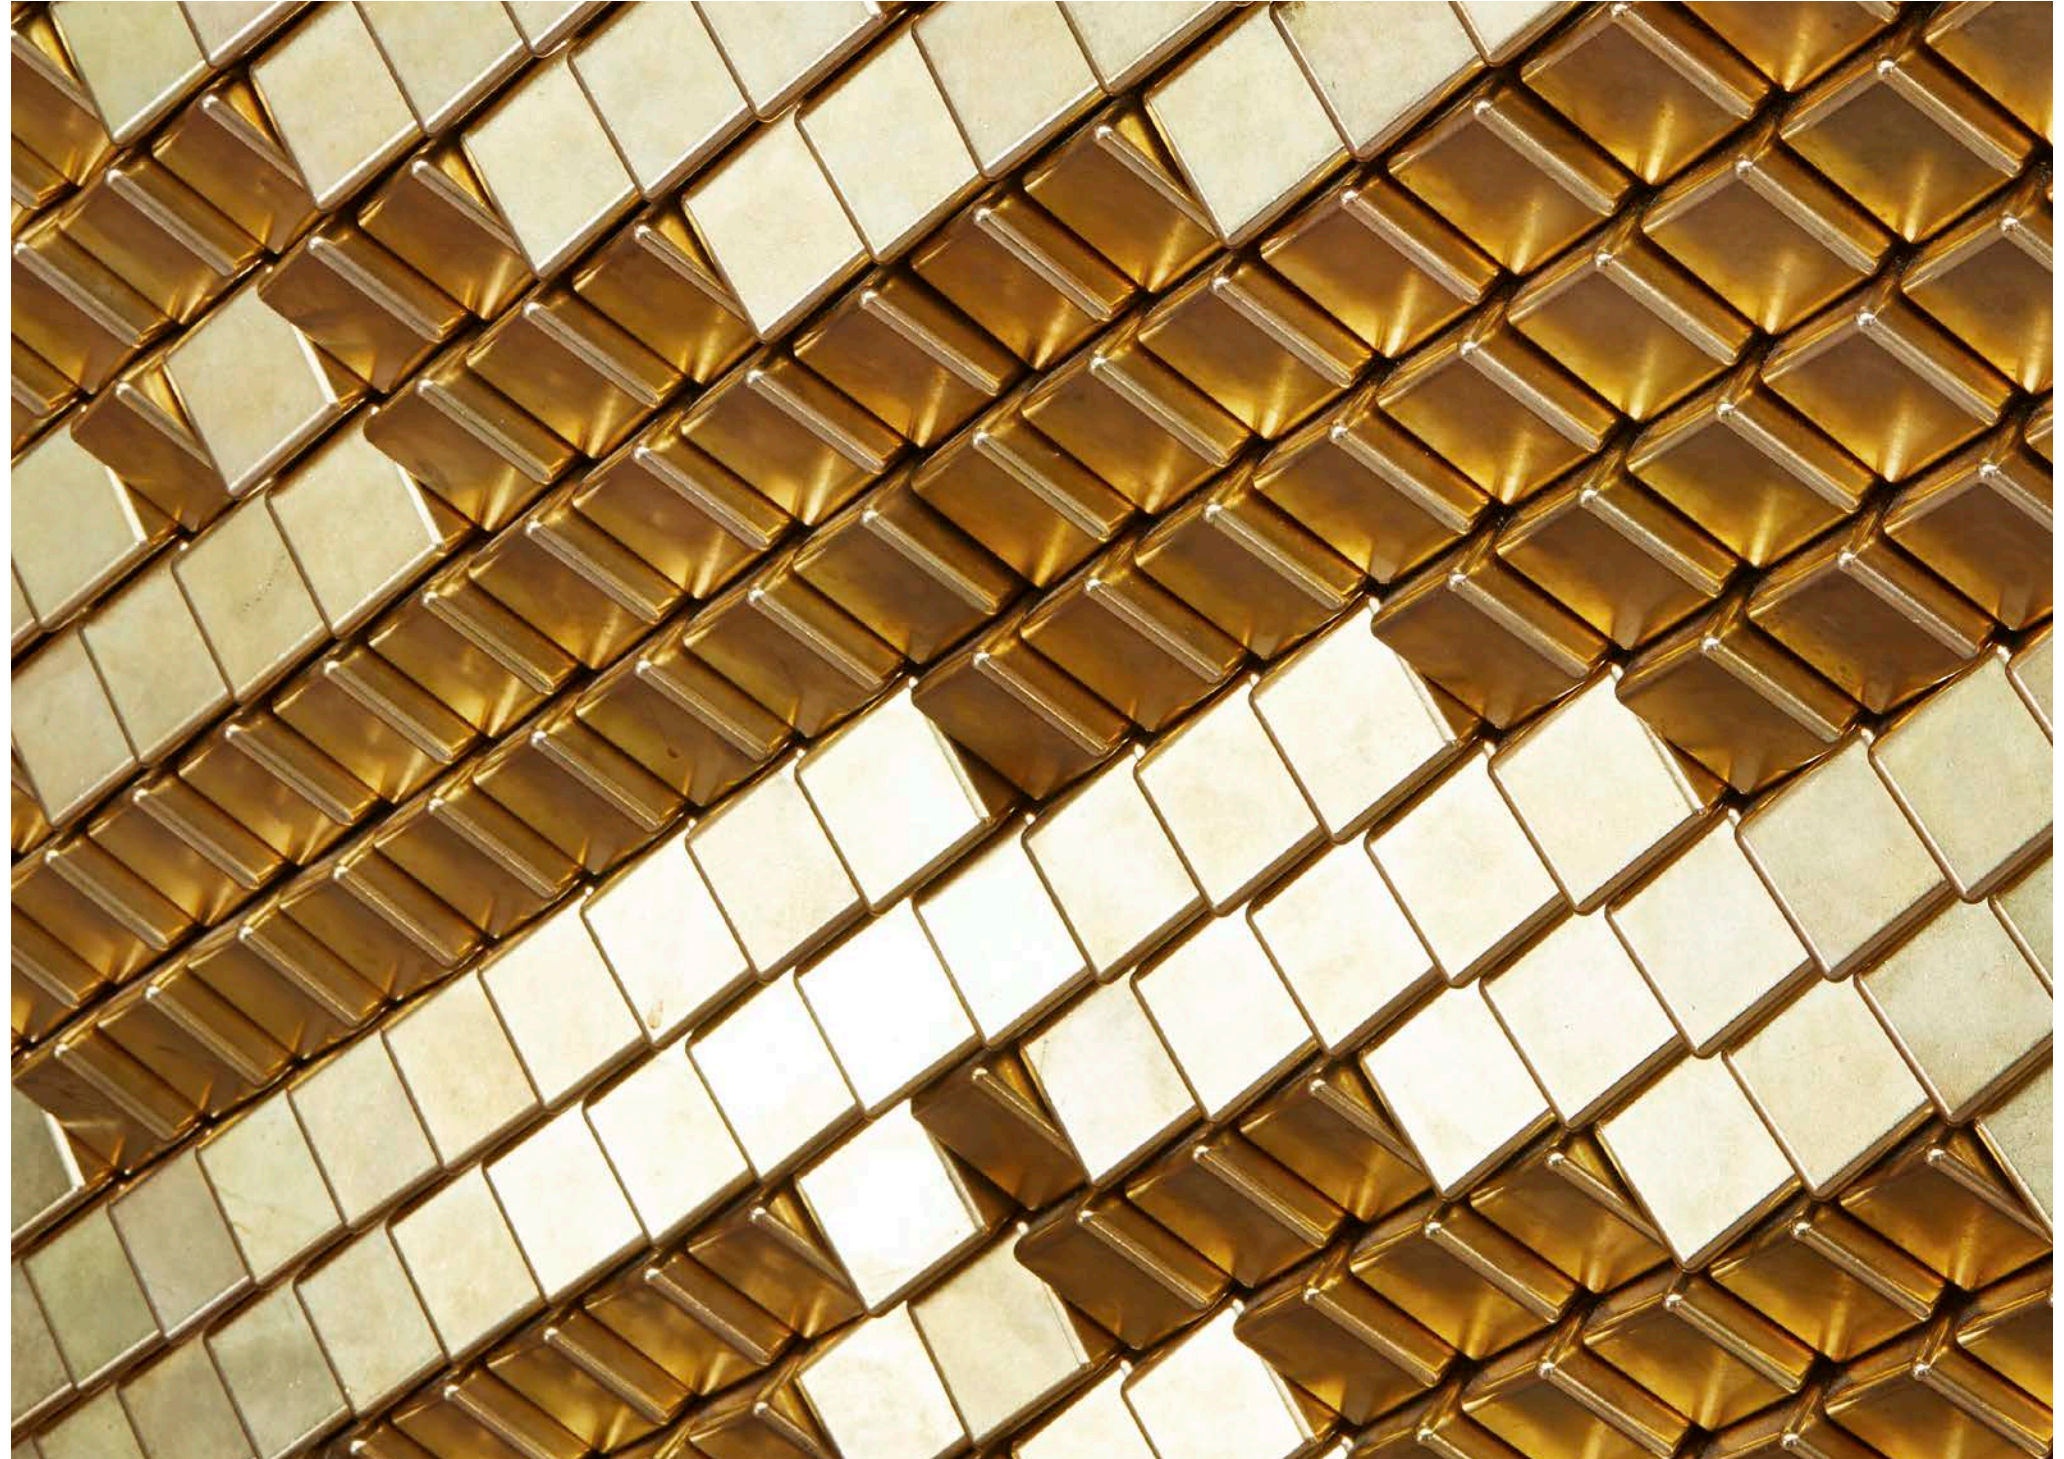

# Butlers Chocolate Cafe

*Dubai Airport, UAE*

Butlers Chocolate needed a robust and durable installation for their Airport stores. GMS developed the *Harper* tile especially for the project – a cast zinc metal tile with brass plated finish, the tile ended up as robust and strong as it did strikingly beautiful. The *Harper* tile has now been commissioned for Butlers Cafes around the globe.

## Level Shoe District

*Dubai, UAE*

Commissioned to create a mural for the Womens VIP area at the Dubai Mall Shoe District, the studio worked alongside interior designers Shed to produce a tailor-made ceramic wall covering featuring tiles arrayed in floral formations in a variety of ceramic finishes.

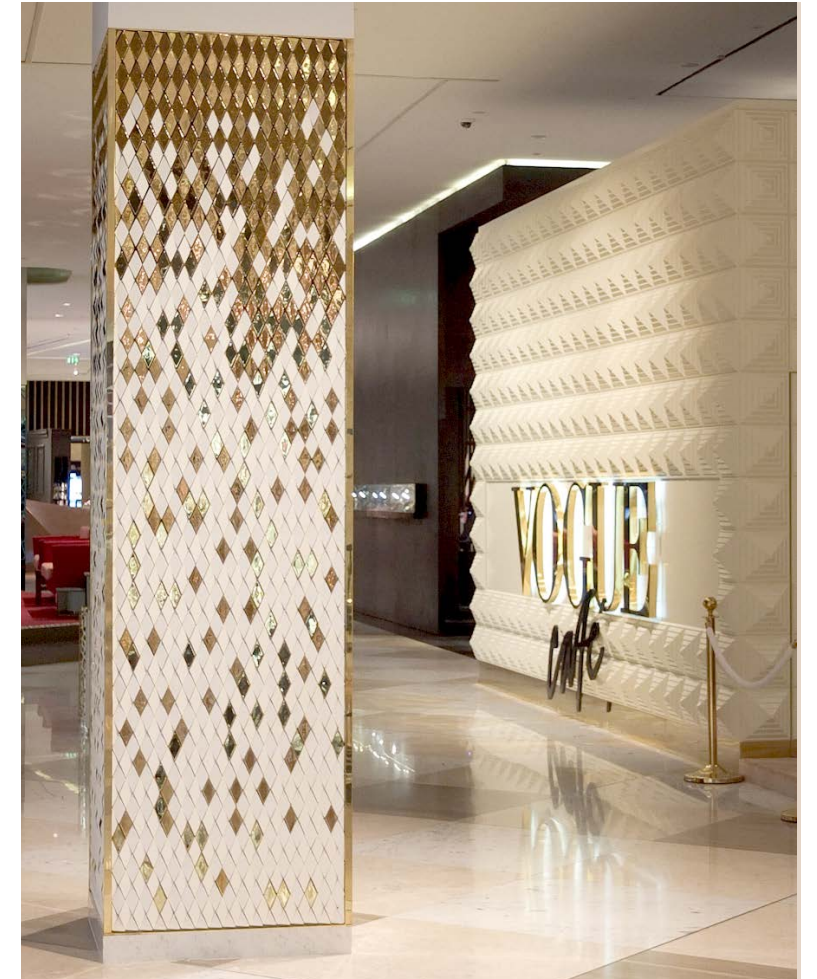

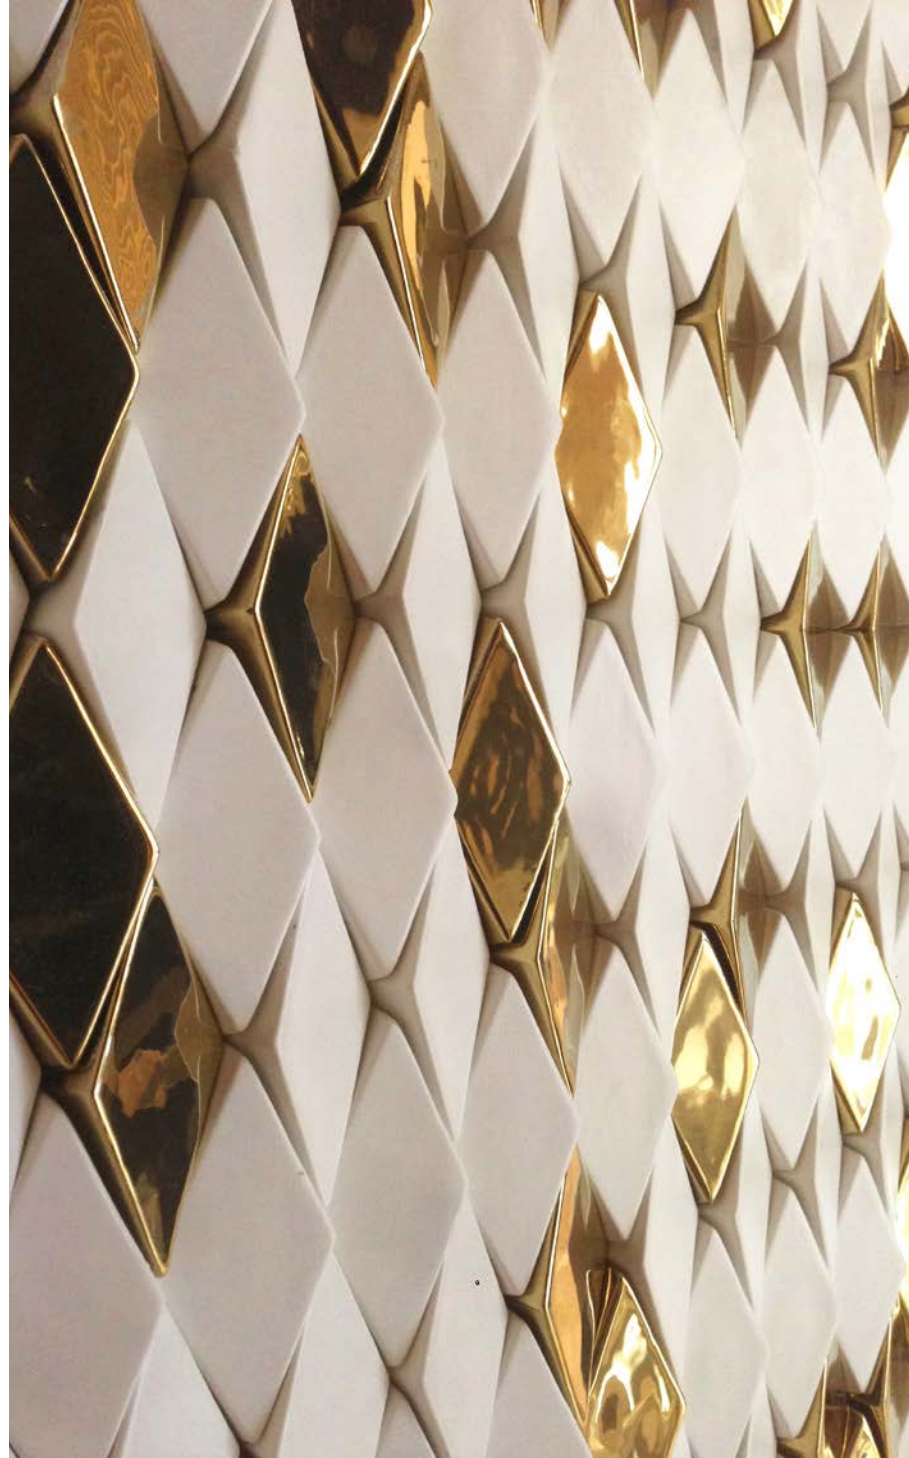

# Dubai Mall

*Dubai, UAE*

GMS began it's love affair with the Middle East with a series of large scale projects in the famous Dubai Mall. We produced new surface concepts for luxury retail including some of the earliest bespoke compositions of our Alexander tile in the womans VIP area as well as the first example of our Wellington tile for a series of decorative structural columns.

## Colab Desk

*Dubai, UAE*

*Ceramic 'Fin' tiles incorporated into the striking reception desk for Colab - Dubai's first material library*

# Buddha Bar

*Dubai, UAE*

Our Wellington tile produced in four different metallic glazes and composed to create a scaley dragon-inspired artwork for Buddha Bar Dubai.

## Yas Mall

*Abu Dhabi, UAE*

Commissioned to create a unique surface system incorporating triangular 3-dimensional tiles, the studio produced both mirror and corian-backed surface artworks for the largest handbag store in the world, located in Yas Mall, Abu Dhabi. Our compositions framed stores including Burberry, Chanel, Dolce and Gabbana, Louis Vuitton and Fendi.
